MEMORANDUM FOR: Deputy Director for Intelligence  
FROM: Director of Central Intelligence  
SUBJECT: Soviet Oil Reserves

Senator Jack Schmitt has several times offered to critique our evaluations on Soviet oil reserves and put us in touch with experts who he says have a far better track record than we have. He repeated it this morning and I would suggest we send people to brief him on our current evaluation and why not use the external source the President recommended.

[redacted]

Ellie, Mr. Hineman's secretary, called to pass on the following re the attached.

[redacted] Chief/Soviet Economy Division/Office of Soviet Analysis, is the person you should be in touch with. Ellie has already called [redacted] to alert him to the fact; he had not seen the note so she read it to him over the phone. Mr. Hineman said there might be other topics. [redacted] is involved in the gas area -- probably OGI involved in the oil reserves area. There may be other people you should be in touch with as well.
